

Automate International Trade. Ship Smarter. Comply Faster.

Automate workflows for International Trade using Agentic AI

Agentic AI

Automate end-to-end workflows: document intel --> funds flow --> goods flow

Document Intelligence

Extract, validate & verify 100-page trade documents in under 3 minutes

Compliance Automation

50+ CTQ checks. ERP-connected. Near-zero customs rejection

ERP & Logistics Integration

Integrates with leading ERPs like SAP® and logistics platforms like ULIP

Import Intelligence

Bill of Entry validation, HS classification & duty optimization, and import document cross-checks (BL, invoice, packing list, LC)

ULIP Shipment Tracking

Real-time goods-flow visibility via ULIP — vessel, container, rail & port milestones on one screen

Exports & Imports — Covered End to End

For Exporters

Shipping Bill validation • e-BRC & export incentive checks • LC / document compliance • customs query resolution

For Importers

Bill of Entry validation • duty & tariff optimization • sanctions & restricted-party screening • ULIP tracking from origin port to plant

Global Trade is Broken. **We're Fixing It.**

Metric	Before	With Liquidmind
Shipping Bill Validation	2–3 days	< 5 hours
Compliance Error Rate	15%	< 2%
First-time Customs Approval	70%	98%
Manual Effort	40 hours	5 hours
Regulatory Queries	24–48 hours	Real-time

Our Products

- **TradeGuard AI** - Compliance Risk Detection
- **Patram AI** - Smart Regulatory Search
- **HSN+ AI** - Automated HS Classification

India's Export Economy needs an AI Co-pilot as the vision is to reach USD \$2 Trillion in Exports by 2030

Ready to automate your export & import compliance?

The Problems

- Trade documents rejected over documentation extraction / mapping errors — costly penalties
- Weeks lost in manual checking, matching & paperwork
- Missed export incentives — lakhs left on the table
- Compliance mistakes — shipment delays at customs

Awards & Recognition

Aegis Graham Bell Award 2026 — Winner

GenAI: Cx Sales & GTM Intelligence — India's premier award for innovation in telecom, media & technology.
